MSHS band and orchestra recording

Mr. Tramel, MSHS band and orchestra teacher, recently added recording capabilities to the practice rooms so students can safely work on their virtual concert videos. Students are able to listen to each other, play together and play to backing tracks — all in separate rooms. Students have also been trained to run the software and record from the control room!

MSHS drawing class

Students from Mr. Bonner's drawing class are immersed in their work while also observing proper social-distancing guidelines.

MSMS math problem solving

At left, students from Ms. Cowart's seventh grade pre-algebra class sort cards to practice different representations of linear functions. At right, Savannah and Keyaira, two of her seventh grade math intervention students, determine the classification of different triangles.
