

# MANITOU SPRINGS SCHOOL DISTRICT 14

# GO MUSTANGS!

MANITOU SPRINGS ELEMENTARY SCHOOL • UTE PASS ELEMENTARY SCHOOL • MANITOU SPRINGS MIDDLE SCHOOL • MANITOU SPRINGS HIGH SCHOOL

## MSES Visits Garden of the Gods

Last week, MSES fourth-graders went on a field trip to Garden of the Gods! The outing was in support of their current CKLA domain, geology! Students learned all about the three rock types and the processes of weathering and erosion, as well as how the Earth has changed over time to form such beautiful red rock formations. After the exploration sessions, everyone enjoyed the afternoon sun on a hike into the park!

## IMPORTANT DATES

**Late Start Wednesday:** March 16 and 30  
**Spring Break:** March 21-25

## MSSD Grounds Team

MSSD 14 honored the grounds team last Friday, March 4, on Grounds Worker Appreciation Day. Thank you to John Hall, Noah Sobeck and David Hurley for all you do to keep our fields and facilities in top-notch shape!

## Career and Technical Education

Community partnerships have been in full force this past week as Mustang alumni George Whitt and Tim Redfern have been assisting with the home build at Manitou Springs High School. These two men have been working with students to lay the sub-floor and ready the site for wall construction. The middle school students were on hand to watch this work and review the blueprints, with the added benefit of our shared campus and the spring-like weather.

Last Wednesday afternoon, students were given the added experience of Colorado Springs Utilities reworking a pole that was in the way of the future roof line. Colorado Springs Utilities went out of their way to rush this project so that we could keep working on our amazing project.

Also, this past Wednesday evening, the entire region of Careers in Construction Colorado met to discuss the program, upcoming events and the annual job fair. This job fair, to take place in early April, will give our students the opportunity to be hired by industry straight out of high school.

Thank you, George, Tim, CSU and CICC, for all your help and support. You are true partners, and your work is changing kids' lives!!
