First Day of School with Cohort 2

We had a very successful first day of school Friday, April 21st with Cohort 2. Students had space to distance in their classrooms and many teachers held outdoor classes on a beautiful August day. Students rode the bus, enjoyed their lunches outdoors and practiced their handwashing using one of the many handwashing stations setup across the District. The District has provided clear acrylic desk dividers for additional safety, too! We look forward to welcoming Cohort 1 and continuing to serve our students!
