Connect14 for Winter and Spring ... registration coming soon!

Watch for registration to be opening soon at Connect14.org!

We'll be bringing back many of your favorites along with more intergenerational offerings.

Contact Connect14 Director Joye Levy at jlevy@mssd14.org with any questions!

Gardening has been a very popular Connect14 class.

Career and Technical Education Corner

Two years ago, with a new Federal Law pending regarding Perkins vocational dollars, the Career and Technical Directors met to discuss work-based learning.

They had no idea at the time what it would look like, but those early discussions created the Pikes Peak Business and Education Alliance. This alliance is a cooperative between the school districts of the Pikes Peak region and industry.

The PPBEA has two employees that manage everything from guest speakers to internships for high school students all over the region. A convenient web page allows teachers, students and business partners the

ability to book experiences and apply for opportunities.

The alliance will allow schools to act as one voice and for students to see all the economic and career options right in their backyard. Each of Manitou Springs High School's Career and Technical Education programs now has a Capstone for the 12th grade that would allow students to earn elective credit for an internship during their senior year.

This program aligns with the goal that all students will be career and college ready when they leave MSSD14. If you are interested in learning more, please contact Kolleen Johnson at kjohnson@mssd14.org.
